## COLLEGE OF COMPUTER SCIENCE & IT, NANDED

M.G.M. Campus, Near Airport, Nanded - 431 605 (MS) INDIA

Date: - 17 /01/2020

To.

The Principal,  
Yeshwantrao Chavan English  
High School, Mangrulpir - Washim

Sub:-Invitation for Technical Exhibition Techexpo 2020.

Respected Sir/Madam,

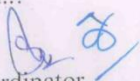

Mahatma Gandhi Mission's College of Computer Science & IT is serving in the field of Computer Science and Biotechnology education from more than 20 years. As a social responsibility to aware the society about technology, we are organizing a technical exhibition Tech-expo from last 12 years which has several bits of different subjects related to computer science, biotechnology and bioinformatics. This would help students to gain knowledge in different aspects of subjects mentioned above and would also enhance their interest in future career. This year Techexpo 2020 is organized on **26<sup>th</sup> & 27<sup>th</sup> of January 2020 from 10 am to 5 pm** in our college.

This event contain following areas

- |                  |                            |
|------------------|----------------------------|
| 1) Visual Expo   | 7) Biremediation           |
| 2) How IT Works? | 8) Waste Management        |
| 3) Robotics      | 9) Fuel Production         |
| 4) Project Expo  | 10) Antibiotic Abuse       |
| 5) Python        | 11) Role of Bioinformatics |
| 6) Hard Expo     | 12) Radiation Hazards      |
|                  | 13) Global Warming         |

We invite you, your faculty members & students of your institution to this event.

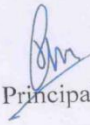

Thank you..!

## NOTICE

### Call for meeting.

Subject:- Regarding conduction of Techexpo-2019.

venue:- Multimedia Lab(PG Lab) time:- 11.00 am date:- 01/11/2018.

Applicable to :- Dept of C.S and I.T. , Dept. of BT and BI, Library, innovation Lab.

### Points to discuss in meeting:-

- 1) Willingness for the conduction of Event.
- 2) Decide the number of sections in the Event.
- 3) As per every year decide the topic of Social awareness for example Digital India.
- 4) How to increase Participation of students in Event.
- 5) Next meeting Date.

## **Innovation and Incubation Cell**

Innovation and Incubation Cell is a specialized facility designed to support the development and growth of budding projects, start-ups or innovative ideas. This cell provides resources, mentor-ship and infrastructure to help individual or teams to transform their concepts into viable products.

This cell is a cutting-edge research and development facility dedicated for creating advanced technological solutions that enhance everyday life. It serves as a dynamic platform for students to engage in hands-on learning, develop their innovative skills and apply the same.

Our mission is to leverage student-driven innovation to solve real-world problems and improve quality of life across various sectors.

### **List of Projects were developed under this Cell:**

1. Automatic Bell System
2. Yoga mate
3. Automatic Hand Sanitizer
4. Digital Notice-Board
5. Digital Record Room
6. Computerized Voting System
7. Smart Shoes for Blind person
8. Web-based Medicine Availability Searching Tool
9. Activity Register
10. Animal Vaccination Record Keeping System

As a result of the incubation cell, students have been able to develop their innovative ideas and convert them into products. In the previous academic year, two groups of our students received seed money of Rs 1, 00,000/- each to develop their ideas into products through Maharashtra state innovation Society (MSINS), an initiative by the Government of Maharashtra.

### **Projects Details:**

Following are the details of some of the above enlisted projects:

#### **1. The Automatic Bell System**

Manually ringing bells at different timings is a tedious job. Our faculty and students have developed an Automatic Bell System that automates this task. The Automatic Bell System is an efficient and versatile signaling device used in various applications such as schools, offices, and factories. The bell is activated using an electrical signal, which can be controlled by a switch, timer, or remote control. This allows for convenient and versatile operations. The bell rings at the predefined timings which are set in the system. The sound intensity can be adjusted according to the specific requirements of the installation site. The Automatic Bell System serves as a reliable alert system in multiple environments like Educational Institutions, Offices, Industries, Public Buildings and many more.

## **2. Yoga mate**

This is one android app which captures the postures of person exercising the yoga and as per the posture displays the name of Yoga Aasan and also alerts is it right posture or not? If the posture is right, it shows the specifications of that particular yoga aasan such how long that aasan to be continued, health benefits of that aasan.

## **3. Automatic Hand Sanitizer**

During COVID-19 pandemic situation, the Automatic Hand Sanitizer is designed to promote hygiene by dispensing hand sanitizer without the need for physical contact. The device uses infrared or ultrasonic sensors to detect the presence of hands beneath the dispenser. This touch-free functionality minimizes the risk of cross-contamination and the spread of germs. The amount of sanitizer dispensed can be customized based on the needs. This ensures efficient use of sanitizer and reduces waste. The unit can be powered either by batteries or an electrical outlet, providing flexibility in installation locations such as homes, offices, schools, or public places.

## **4. Digital Notice-Board**

The Digital Notice-Board is an intranet-based application used to display and edit various notices and notifications. Events and achievements are highlighted. Each day, a positive thought is displayed on the notice board. Photos of national heroes are displayed on their commemoration days. The birthdays of students and staff members are also shown. Additionally, one English word along with its meaning is showcased daily. Amazing facts, upcoming events, quiz questions, and new arrival books are featured on this notice board.

## **5. Digital Record-room**

Maintaining physical copies of student documents involves many issues such as wear and tear, and it also contributes to paper waste. Digital Record-

room system is a intranet based system developed by our faculty and students to store the documents in digital form. It allows the storage of students' documents, such as HSC mark sheets, UG/PG mark sheets, TC, etc., in digital form. Scanned copies of these documents are stored on a server and can be accessed and downloaded easily as needed.

#### **6. Computerized Voting System**

The Computerized Voting System is a software application developed to conduct student elections at the institute. It has two ends: Server and Client. The server side allows the addition, editing, and deletion of candidate names and authenticates the voters. The authentication of the student is checked through the bar-code printed on the ID Card of the student. The client side allows students to cast their votes for the desired candidate. The final result is calculated automatically at the instruction of administrator. Finally, the server side declares the winner of the election.

#### **7. Smart shoe for Blind Person**

Blind person, while walking faces many challenges like obstacles pot holes etc. This hardware interfacing based project developed focusing on the blind person issues. This smart shoes is having sensor which can detects the obstacle and alerts the user by beeps sound. Also it generates vibrations so that even a blind and deaf person can get alert and can avoid accident.

#### **8. Web-based Medicine Availability Searching Tool**

Many patients' needs specific medicines and considerable amount of time may get wasted finding chemist or medical shop having sufficient stock of such medicine. This web based tool solves this issue by allowing user by showing appropriate medical shop based on searching criteria like Medicine name, manufacturer and form.

#### **9. Activity Register**

For academic institutes, it is just not important to conduct different activities but also to maintain all relevant data or records which may be needed in future. In such case locating specific data becomes cumbersome job. All these issues are easily address using web based Activity Register system. It allows the user to enter the details of each event organized, staff and student achievements along with supporting documents. These documents are stored at central which are accessible throughout the campus to authorized user.

#### **10. Animal Vaccination Record Keeping System**

Alike human vaccination, animal vaccination is also important to maintain their health. But for many animals, the owners don't know when

which vaccination which animal to be administered. And also the past record of the vaccination is hardly available. This web-based system helps to solve this issue allowing its users to feed all the details of the animals and its vaccination records and furthermore upcoming vaccination date.

### **Conclusion**

The Innovation and Incubation Cell at MGM's College of Computer Science and IT, Nanded, has proven to be a vital resource for fostering creativity and technological advancement among students. The diverse range of projects developed under this cell exemplifies the cell's commitment to solving real-world problems and enhancing the quality of life.

## **Intellectual property Rights (IPR) Cell**

Intellectual property plays an important role in providing a competitive edge to any institution. Tangible assets like inventions, designs, software, and other creative and innovative ideas are often more valuable than physical assets.

In this direction, the institute initiated the formation of an Intellectual Property Rights (IPR) Cell to encourage research and provide a conducive environment for researchers. The IPR Cell of the college was constituted with the aim of creating awareness about IPR among the stakeholders of the institution. The cell fosters an environment conducive to raising awareness about the importance of IPRs as valuable financial assets and economic tools among researchers, faculty, and students of the institute.

### **Objectives**

1. To create awareness and educate on Intellectual property rights (IPR) among faculty and students of the college.
2. To advice and guide faculty and students on the importance of IPR.
3. To conduct workshops, seminars, expert lectures/ talks activities and training programs on IPR.

### **IPR cell committee members**

Prof. Shirish L. Kotgire	Principal	Chairman
Dr. Mrs. Kanchan A. Nandedkar	Vice Principal & Head	Member
Dr. Smita A. Bhopi	Asst. Professor	Member

Dr. Mayuri S. Sarsar	Asst. Professor	Member
Mr. Vishal M. Pathak	IQAC Coordinator	Member

## Importance of IPR

It is essential to protect intellectual property to enable organizations to earn recognition and financial benefits. Governments of various countries safeguard the innovative ideas of inventors through Intellectual Property Rights (IPR). Recently, IPR has become a central issue in developed and developing countries.

The IPR cell at our Institute organized seminars, workshops, expert lectures, and talks on IPR and related topics to promote the significance of IPR among the faculty members and students of the institute.

**Intellectual Property Rights (IPR) Policy** refers to the rules and regulations governing the protection and enforcement of intellectual property (IP) rights. These rights are legal entitlements given to creators and inventors to control and benefit from the use of their creations and inventions.

### Key components of an IPR policy typically include:

**Patent Policy:** Covers the protection of inventions, granting exclusive rights to inventors to prevent others from making, using, or selling their inventions for a certain period.

**Copyright Policy:** Protects original works of authorship, such as literature, music, and art, granting creators exclusive rights to use and distribute their works.

**Trademark Policy:** Protects brand names, logos, and other identifiers that distinguish goods and services in the marketplace.

**Trade Secret Policy:** Covers confidential business information that provides a competitive edge, protecting it from unauthorized use or disclosure.

**Enforcement Mechanisms:** Includes legal procedures and remedies available to IP holders to enforce their rights and prevent infringement.

**Intellectual Property Rights (IPR) Policy** refers to the rules and regulations governing the protection and enforcement of intellectual property (IP) rights. These rights are legal

entitlements given to creators and inventors to control and benefit from the use of their creations and inventions.

**Enforcement Mechanisms:** Includes legal procedures and remedies available to IP holders to enforce their rights and prevent infringement.

**International Treaties and Agreements:** Covers how domestic IPR policies align with international standards, such as those set by the World Intellectual Property Organization (WIPO) and agreements like the TRIPS Agreement (Trade-Related Aspects of Intellectual Property Rights).

**Licensing and Technology Transfer:** Addresses the rules for licensing IP and transferring technology, ensuring that IP rights facilitate innovation and collaboration.

**Public Policy Considerations:** Balances IP protection with public interests, ensuring that IP laws do not stifle innovation, access to information, or cultural development.

A robust IPR policy aims to initiate creativity and innovation while ensuring fair competition and access to knowledge and technology.

Subject: Expressing gratitude for endowment of Automatic Bell System Product.

Dear Sir,

I am writing to express my sincere gratitude for your unwavering support. On behalf of my college Nandigram Institute of Information Technology, Nanded, I am extending heartfelt gratitude for the generous endowment of Automatic Bell System product, which is developed by your Innovation and Incubation centre.

Your thoughtful contribution has made a significant impact on our students and staff alike. The addition of this product will undoubtedly enhance our educational programs and encourage our students to excel in their studies.

Once again, thank you for your generosity and dedication. We look forward to continuing our partnership and making a lasting difference in the lives of our students.

Warm regards,
