MGM's COLLEGE OF COMPUTER SCIENCE & IT

Mahatma Gandhi Mission trust was established on 20th December 1982 in Nanded, Maharashtra with a futuristic vision to provide quality education and health services in the underdeveloped Marathwada region. Since inception, the trust has focused on providing healthcare services, school education and higher education with dedication and commitment. In the course of time MGM extended its services to Aurangabad, Navi-Mumbai and Parbhani in Maharashtra and Noida (New Delhi, UP). A chain of school and colleges in the faculties of Engineering, Architecture, Medical, Nursing, Management, Computer Science and Information Technology, Biotechnology, Bioinformatics, Fine Arts and Journalism stand testimony to endeavours of the trust. Mahatma Gandhi Mission has been instrumental in promoting Classical Dance and Music for art seekers. The trust has also paid heed to the aspect of physical fitness by promoting sports activities and creating the facilities for same. Services to the society at the grass root level has been the basic vocation of the trust along with education. The Trust has been instrumental in providing prompt and efficient healthcare services to the economically weaker section of a society, the Trusts hospitals and Medical colleges underscore its commitment to human resource development and social health and welfare. The Trust has made phenomenal progress under the able leadership of the founders lead by the Chairman, Hon. Shri Kamalkishor Kadam (Ex-Education Minister, Govt. of Maharashtra). The founders of the Trust are a group of ingenious engineers, doctors and scientists having a high career profile and commitment to academics to social interest and dedication. The recipient of International Environment Trophy, MGM continues its journey imparting value based services, creating global technocrats and health care personnel.

DEPARTMENT OF BIOTECHNOLOGY & BIOINFORMATICS

Biotechnology, emerged as an area of activity having potential impact on virtually all domains of human welfare, ranging from human health, protecting the environment to agriculture based industries and rapid development in the field of biotechnology includes new dimensions everyday. The Biotechnology helps the students to find the employment in Biotech companies, Healthcare, Pharmaceuticals, Agriculture based industries, Food, Beverages industries, Environment and energy sector. Biotechnologists are required in research and development, production, quality control, management, marketing, contract research, academics and entrepreneurship. Global career opportunities in the field of Science & Technology are available for Biotechnologists. In India more than 1000 government and private research institutes and industries seek the trained professionals in the dynamic world of Biotechnology.

Bioinformatics blends biology, computer science, and mathematics to analyze biological data, from DNA sequences to protein structures. It's at the forefront of understanding complex biological systems, unlocking insights into genetics, diseases, and drug development. In this interdisciplinary field, students learn to use computational tools to decipher biological information, paving the way for advancements in medicine, agriculture, and environmental science. With high demand for skilled professionals, a degree in bioinformatics offers exciting career prospects at the intersection of science and technology. Equip yourself with skills in data analysis, programming, and machine learning to tackle pressing challenges in healthcare, agriculture, and biotechnology. Join us at the forefront of innovation, where curiosity drives discovery and knowledge transforms the world. Explore the frontier of bioinformatics today!
